## Community Visionary Conference 8:30AM - 5PM

Got new ideas? What does the future hold for our teens, for micro-enterprise? What is the vision for 'we the people'? Come sit elbow to elbow and let's talk about the future with parents, teens, farmers, police, artisans, green business owners, athletes, musicians, doctors and more!

Gather insights about change from a multi-millionaire who lost it all, became homeless, then a bestselling author of *Breakfast at Sally's*! Meet a man who restored himself from prison to become an employment expert! Learn why some officials advocate for restorative justice; why a cowgirl has turned social media maven and founded *UnitingCreatives.com*. Learn from a Varsity Coach who has helped his athletes return to work after prison and created ReEntry University! What's up with them? How are they adapting in a changed world? What's in it for you?
